

Landscape Architect/Project Designer – Land Development Department

McClelland Consulting Engineers, Inc. is seeking a Landscape Architect/Project Designer to join our Land Development Department in our Little Rock office. This position will be responsible for projects across Arkansas. As a member of the team, you will be involved in planning, designing and assisting with the management of a wide variety of site design, trail, park and landscape projects. This position will serve as a key part of our Land Development Team and will have the opportunity to work on challenging turnkey projects with an experienced design team, while also gaining valuable knowledge from project managers, professional landscape architects and professional engineers with many years of experience.

QUALIFICATIONS AND SKILLS

- Strong oral and written communication skills
- Ability to operate AutoCad Civil 3D or MicroStation
- Shall have knowledge of commonly-used concepts, practices and procedures within the field of engineering
- One year CAD certificate from a college or technical school, or equivalent combination of training and experience
- At least one year of CAD design experience preferred
- Full range of visual depth perception and the ability to distinguish colors
