

Project Designer – Transportation

McClelland Consulting Engineers, Inc. (MCE) is seeking a Project Designer to join our Transportation Department in our Little Rock office. This position will assist in the design of construction projects dealing with projects such as roadways, traffic management, signalization, multi-use trails, stormwater drainage, etc. A Project Designer must also have knowledge of commonly-used concepts, practices, and procedures within the fields of civil engineering.

RESPONSIBILITIES AND FUNCTIONS

- Assisting with the design of transportation, multi-use trail and stormwater drainage projects.
- Assisting with construction related aspects of projects by way of submittals, pay applications, field questions and site visits.
- Estimating construction costs, preparing written communications and reports, design research and calculations, drafting and technical specifications, establishing and meeting completion dates.
- Exercising independent judgment, intuition, creativity, problem solving, planning, communicating and use of technical and analytical skills.
- To work effectively as a team member alongside other individuals with the department, to contribute toward the success of the team.
- To demonstrate a commitment to learn and to develop relevant expertise.

QUALIFICATIONS AND SKILLS

- Bachelor's Degree in Civil Engineering (Required)
- Engineer Intern (EI) (Preferred)
- Strong oral and written communication skills
- Ability to operate AutoCad Civil 3D or MicroStation
- knowledge of commonly-used concepts, practices, and procedures within the field of engineering.
